

To seek an opportunity to improve my skills, knowledge and enhance it further while being able to deliver the best for both, organization as well as personal growth.

WORK EXPERIENCE

System Engineer (Data Analyst) INFOSYS LIMITED

07/2022 - Present

RDE- Rams Data Experience (Westpac Client)

Achievements/Tasks

- ETL tool (Visual Studio) to build procedures and SQL scripts, and I create views based on tables.
- Transferring Temenos (ROS + SYM) data from the SFT DEV environment to the SIT environment with assistance from support.
- Executing Control-M jobs to ingest data into current (CUR) and historical (HIST) tables within the RAW layer .
- Validating the data through testing and preparing test documentation.
- Schedule jobs using Control-M and conduct testing in higher environments.
- I successfully executed production implementation, meeting both client requirements and timelines.

PERSONAL PROJECTS

DIGITAL KISAN MARKET (2019 - 2020)

- A web-based portal enabling farmers to directly communicate with buyers for selling their products without involving any intermediate third-party.
- Technologies used HTML5, CSS, JS and PHP, MYSQL.

COVID-19 FACE MASK DETECTOR (2020 - 2021)

- It is a graphical user interface (GUI) that detects whether a person is wearing a face mask properly or not.
- It begins by exploring mask/no-mask classification in webcam videos, then transitions to the mask/no-mask classification problem.
